

Subpart 101-17.2—Utilization of Space

§ 101-17.200 Scope of subpart.

This subpart prescribes the principles and objectives of GSA in regard to the full and efficient utilization of Government-controlled space. The efficient utilization of space is closely related to the assignment functions of GSA, and, therefore, this subpart shall be considered in the light of the policies and procedures in subpart 101-17.1, Assignment of Space.

§ 101-17.201 Responsibility of GSA.

(a) GSA will assign agencies sufficient space to carry out their programs, provided that the need for such space is justified to the satisfaction of GSA.

(b) GSA will conduct space inspections and space utilization surveys to promote and enforce efficient utilization, recapturing for release or reassignment any space which the agencies do not justify to the satisfaction of GSA as being required. Adequate advance notice of the planned survey will be given to the agency concerned.

§ 101-17.201-1 Conduct of space inspections.

GSA will plan space inspections at periodic intervals on a community, building, or agency basis as appropriate. Inspections will be made in an orderly manner, on the basis of a floor-by-floor and room-by-room check of all assigned space. The agency will be provided with a written summary of significant findings and recommendations, together with data concerning improvements which can be effected by the agency, and those which are planned by GSA.

§ 101-17.201-2 Conduct of space utilization surveys.

Space utilization surveys are made to ascertain whether a current assignment can be made more efficient and economical. These surveys may be scheduled as a result of a request for space, an action to improve utilization, an assignment action requiring a relocation of an activity, or as a result of a space inspection. Agencies will be kept informed of space utilization sur-

veys and actions related thereto by the appropriate GSA regional office listed in § 101-17.4801.

§ 101-17.202 Responsibility of agencies.

It is the responsibility of the agencies to assist and cooperate with GSA in the assignment and utilization of space, including the furnishing of data relative to the use of the space occupied, and personnel housed or to be housed. It is the further responsibility of the agencies continuously to study and survey space occupied under assignment by GSA and other space which is controlled by the agencies, to insure efficient and economical space utilization. It is also the responsibility of those agencies which control space to report to GSA any space which is excess to their needs and which might be assigned to other agencies.

§ 101-17.203 Release of space not fully utilized.

The space utilization program is designed to effect maximum efficient utilization of Government-controlled space. Space for which there is no current foreseeable need will be relinquished.

§ 101-17.204 Notice to GSA of relinquishment of assigned space.

(a) GSA shall be notified by an agency occupying space assigned by GSA at least 120 days prior to the date on which the space, or portion thereof, will no longer be needed. In no event, however, shall such notice be given less than 30 days prior to the date on which a lease termination notice must be issued. Such notification shall be submitted in writing to the GSA regional office responsible for the geographical area in which the space is located, giving a description of the area involved, its location and the estimated date of release. When a portion of space is released, it must be consolidated and accessible for reassignment. Any alteration required to make such space consolidated and accessible will be borne by the agency before the space is assumed by GSA. The appropriate GSA regional office may reassign or dispose of the space.

(b) When an agency is responsible for operation, maintenance, and protection
